ICT User Agreement

The ICT User Agreement applies when I am using digital technologies at school, at home, travel between school and home, during school excursions, camps and extra curricula activities.

I understand and agree to comply with the terms of acceptable use and expected standards of behaviour set out within this agreement. I understand that Cornish College has established actions and consequences if I do not behave appropriately.

MacBook Agreement

The following agreement is to be signed by any student (and a parent or guardian of the student) who is using a personal MacBook computer at Cornish College.

i. We understand that the MacBook computer to be used at school is for schoolwork only, and software used at school will be confined to that legitimately required for schoolwork. The school has the right to remove inappropriate software if it is being used in school time. Parents will be contacted first if there is any doubt about the suitability of software.

ii. We accept that teachers have the authority to confiscate MacBooks that are being used inappropriately at school. If a MacBook is confiscated parents will be notified. Students will be required to complete an incident form, which must be signed by their parents before collecting their computer from the Team Leader.

iii. We understand that the MacBook is a tool and will not be required for every task in class, e.g. map drawing.

iv. We understand that students are responsible for making sure that the MacBooks are fully charged at the beginning of the day.

v. Security will be the responsibility of the student. It is required that MacBooks are locked in lockers when not in use. The MacBook should be clearly named and identified. Whilst the school will take every reasonable precaution, it cannot be held accountable for loss or damage.

vi. We understand that students will not engage in any activity, which either infringes existing laws or impinges upon the College or individual’s reputation. This code is also intended to cover the use of all digital technologies at school, activity on the Internet and includes activity on social media sites.

vii. We agree to abide by the College’s MacBook Policy and the practices contained therein.
